

SATPAL SHARMA

Machine Learning Engineer · Full-Stack Developer

+91 9279350292 | ✉ satpal9334236@gmail.com | github.com/Satpal2004 | linkedin.com/in/satpal-sharma | Jamshedpur, Jharkhand, India

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on expertise in Machine Learning model development and full-stack web application engineering. Proficient in the end-to-end ML lifecycle — from data preprocessing and feature engineering to model training, evaluation, and deployment. Demonstrated ability to build scalable, high-performance web solutions using modern frameworks. Seeking a challenging role to leverage data-driven insights and software engineering skills in a dynamic technology environment.

TECHNICAL SKILLS

Machine Learning: Python, NumPy, Pandas, Matplotlib, Scikit-learn, ML Lifecycle (Training, Evaluation, Deployment)

Web Development: ReactJS, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS.

Database & Tools: SQL, Git, Responsive Design, Web Deployment & Performance Optimization.

PROJECTS

Life Insurance Risk Prediction System

Jan 2026

Tech Stack: Python · NumPy · Pandas · Matplotlib · Scikit-learn

- Engineered and trained a predictive ML model on a dataset exceeding 100,000+ records, optimizing hyperparameters to achieve maximum predictive accuracy.
- Achieved a 30% improvement in prediction accuracy through rigorous feature engineering, cross-validation, and model selection techniques.
- Reduced approval of high-risk insurance applications by approximately 25% through predictive modeling.

Festivana — Event Management Web Platform

Jul 2025

Tech Stack: HTML5 · CSS3 · JavaScript · Django · SQL

- Developed a full-stack event management platform with server-side rendering achieving sub-1000ms page load times across all dynamic routes.
- Implemented a secure user authentication system (registration, login, session management) with full database integration using Django ORM and SQL.
- Delivered a fully responsive, cross-device UI optimized for desktop, tablet, and mobile viewports using CSS Flexbox/Grid.

INTERNSHIPS & CERTIFICATIONS

Data Analytics Intern · Vizzital Academy

Feb 2026 – April 2026

- Conducted exploratory data analysis (EDA) on real-world datasets using Python (Pandas, Matplotlib) to extract actionable business insights.
- Prepared data pipelines and visualization dashboards to support data-driven decision-making.

Python OOP : Object Oriented Programming in Python ·Udemy.

April 2026

- Completed Python OOP course on Udemy, gaining strong understanding of classes, inheritance, polymorphism, and encapsulation.
- Applied OOP principles to build modular, reusable code, improving program structure and maintainability.

Web Development Intern · PaulTech Software Services Pvt. Ltd.

Jun 2025 – Sep 2025

- Contributed to the development and maintenance of client-facing web applications using HTML, CSS, JavaScript, and Django.
- Collaborated with senior developers in an agile environment, participating in code reviews and iterative feature delivery.

EDUCATION

Bachelor of Computer Applications (BCA)

Expected: Jun 2026

Srinath University, Jamshedpur, Jharkhand | Aggregate: 73.4%

Intermediate of Science (PCM)

Aug 2021 – July 2023

Central Karimia High School / Aggregate: 78.4%
